

# Tri-Creaser Advance

Folding machine device that prevents digital prints from cracking!

*Covered by our  
unique 3-month  
money back  
guarantee*

## Why the Tri-Creaser Advance?

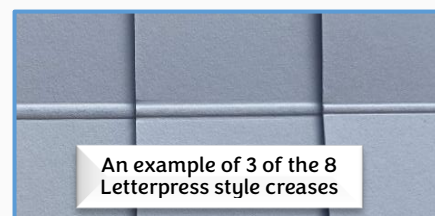

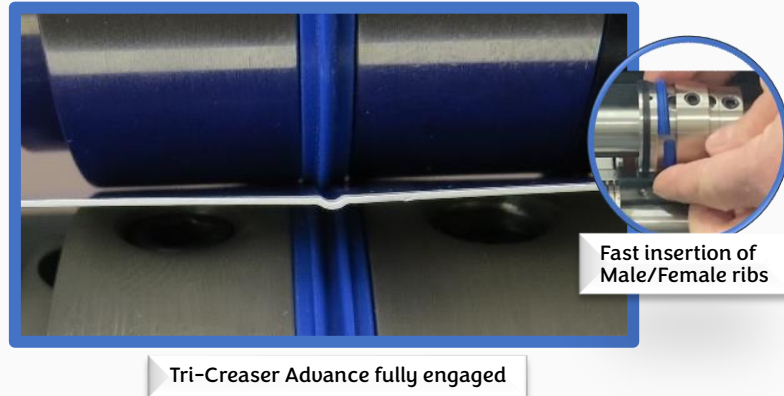

It is a simple fact; Your OEM scoring tools are **critically flawed** and have not evolved to keep pace with folding machine technology. They retain the same destructive elements ever since they were first developed in 1850 and fail to prevent digital prints from cracking. The link below takes you through to a document that includes all the details...

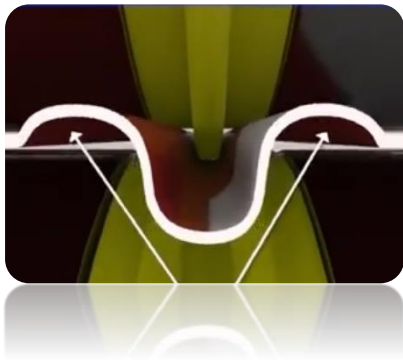

**THREE REASONS WHY  
YOUR FOLDING MACHINE'S OEM SCORING  
TOOLS WILL **NEVER** STOP YOUR FOLDED  
PRODUCTS FROM CRACKING!**

The **Tri-Creaser Advance** is our best solution for those companies who process a considerable number of **digital prints** and other more sensitive stock materials that are prone to cracking. There are two critical factors that sets this version apart from all other forms of creasing applications. Firstly, it uses softer and **more gentle creasing ribs** made from another grade of our specially formulated and patented rubber **compound**. And **secondly, the female hub holds a series of plastic double scoring ribs that not only create the crease widths but also apply a score either side of the underside bead to help reduce or eliminate inner flaking**. The split in the male/Female ribs makes insertion into the device a fast process. **Now you can make sure your products look great both on the inside and outside**

## Some Tri-Creaser Advance Features & Benefits

- **Eliminates fibre cracking** even on digitally printed stocks.
- Produces **Letterpress style** creasing.
- The split in the male creasing ribs ensures crease engagement is fast & simple.
- Double scoring ring easily inserts into Female locking hub to help reduce or eliminate inside flaking.
- Ensures that folding is 100% consistent with the crease
- 8 in-built settings to choose from.
- Male/female **colour-coding system** means even inexperienced operators will become instant scoring experts.
- **Takes away** any operator guess work.
- Saves time and improves productivity.
- **Pays for itself** within 1 – 3 job runs.
- Includes 3-month **100% money back guarantee**.
