

# Tri-creaser

Spelling the end of "cracking" problems on your folding machine

Change over of crease setting is simple

Instantly transform your folder into an integrated folding and creasing machine with **guaranteed perfect results**

- Produce Cylinder quality creasing as fast as your folder can run
- Save thousands of pounds and hours and hours of wasted time
- Choose from seven settings, and at the flick of a finger change from one to another according to the weight of stock you run through the folder
- Get even your most inexperienced of operators to achieve amazing results within minutes, its that simple
- Enjoy the benefit of a return of investment after only three or four job runs
- Have reassurance that the Tri-creaser is comprehensively guaranteed, meaning that you can instantly receive a 100% refund if you are not completely happy with the results.

**How many manufacturers have this much confidence in their products?**

## Tri-creaser Easy-fit

...instant crease style change!

**Now you have the chance to purchase our luxury Tri-creaser upgrade including all the added benefits for just a little extra investment.**

### Added Benefits:

- **Enhanced quality of crease**  
The newly designed and more robust "gripper- crease" acts as a cushion, absorbing uneven shaft pressure adding greater depth as well as enhanced sheet support. This breakthrough is particularly advantageous for companies that struggle to deal with lighter paper stocks on existing Letterpress Cylinders.
- **Even more creasing impressions**  
The Gripper crease ensures extra durability by up to 75%.
- **100% colour coding**  
Matching of male crease with corresponding dot coded female channel eradicates any confusion during make-ready.
- **Side-loading and spare storage**  
Simply push-fit your choice of Gripper-crease contained in the storage recess. This allows for a super quick change of creasing style without altering crease position. All three choices of gripper-creases are retained within the body of the male component.
