

# Tri-Creaser Easy Fit

Folding machine device that eliminates fibre cracking

*We stock multiple versions of the Tri-Creaser Easy Fit for top brands of folding machines, please check the manufacturer's list at the foot of this page for details*

*Covered by our unique 3-month money back guarantee.*

## Why the Tri-Creaser Easy Fit?

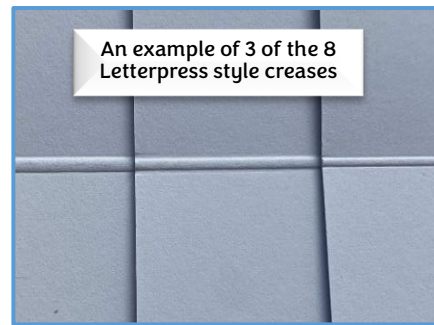

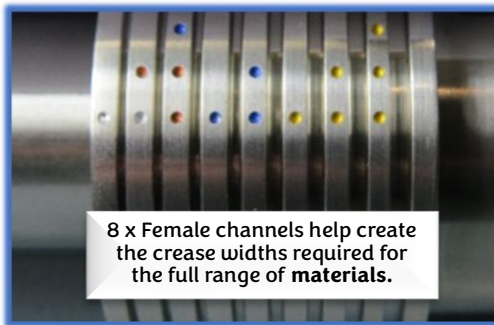

It is a simple fact; Your folding machine manufacturer did not design the supplied OEM scoring tools to prevent single stock materials such as covers, brochures, menus, greetings cards & leaflets from cracking. The abrasive scoring blades create a V-shaped score that is more prone to damaging single stock fibres, this download document includes all the information.

**THREE REASONS WHY  
YOUR FOLDING MACHINE'S OEM SCORING TOOLS  
WILL NEVER STOP YOUR FOLDED PRODUCTS  
FROM CRACKING!**

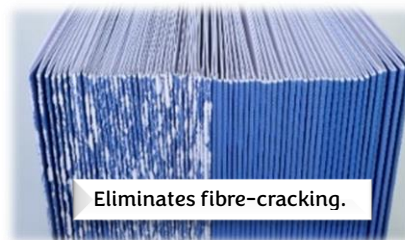

The **Tri-Creaser Easy Fit** comes with a full colour-coding system to make setting simple. Operators can choose to load 2 spare circular rubber creasing ribs into the device from a side storage channel before locking them into place. This version makes full use of our **specially formulated and patented rubber creasing ribs, designed to prevent 65-350 gsm stocks from cracking during the folding stage.** The Tri-Creaser Easy Fit delivers the same high standard creasing results as the popular Fast Fit version. However, because operators may need to take out the shafts from the folding machine to insert the circular creasing ribs, setting takes longer, and this reflects in its **lower pricing point.**

## Some Tri-Creaser Easy Fit Features & Benefits

- **Eliminates fibre cracking** even on digitally printed stocks.
- Produces **Letterpress style** creasing.
- Ensures that folding is 100% consistent with the crease.
- **8 in-built settings** to choose from
- Male/female **colour-coding system** means even inexperienced operators will become instant scoring experts.
- Side storage channel in male hub houses 2 of the 3 creasing ribs
- **Takes away** any operator guess work.
- Saves time and improves productivity.
- **Pays for itself** within 1 – 3 job runs.
- Includes 3-month **100% money back guarantee**.

3 colour-coded creasing ribs of various sizes dictate the depth of score according to the processed stock.

your Tri-Creaser Easy Fit performs within the first  
3 months of purchase, simply return it to us and  
we will refund 100% of the money you paid.**

"We have used the Tech-ni-Fold Tri-Creaser in-line on our folders for a number of years, it is a very quick system to make ready and the results are equal to a cylinder crease. Because we can crease in-line, we are able to achieve speeds of up to 30k sheets per hour on our Heidelberg Stahl folders, eliminating all cracking across a multitude of stock types."
