

NEW

# Tri-creaser Easy Fit

Spelling the end of "cracking" problems on your folding machine

...instant crease style change

Eliminates cracking on stock  
range 100-350gsm

Now you have the chance to purchase our luxury Tri-creaser upgrade including all the added benefits for just a little extra investment.

## Added Benefits:

- **Enhanced quality of crease**

The newly designed and more robust "gripper-crease" acts as a cushion, absorbing uneven shaft pressure adding greater depth as well as enhanced sheet support.

This breakthrough is particularly advantageous for companies that struggle to deal with lighter paper stocks on existing Letterpress Cylinders.

- **Even more creasing impressions**

The Gripper crease ensures extra durability by up to 75% over previous model.

- **100% colour coding**

Matching of male crease with corresponding dot coded female channel eradicates any confusion during make-ready

- **Side-loading and spare storage**

Simply push-fit your choice of Gripper-crease contained in the storage recess. This allows for a super quick change of creasing style without altering crease position. All three choices of gripper-creases are retained within the body of the male component.

## Testimonials

*"We purchased the Tri-creaser Easy Fit in August and it has only taken us four weeks to recover our investment. Now that we know the system works so well we estimate that it may save us £20,000 in the next 12 months. We are looking to place an order for another three units in the next two months.*

*The device is incredibly versatile with 8 settings to choose from, it is so simple to use and operator friendly.*

*The Tri-creaser Easy Fit's all round ability and performance has exceeded our expectations and we appreciate the excellent and knowledgeable back-up service provided by Tech-ni-fold.*

*I have no hesitation in recommending the Tri-creaser Easy Fit to any company that wants to avoid outsourcing their creasing work and save literally thousands of pounds in the process"*

**Andy Coles, Wyndeham Westway, Luton, UK**

*"We thought the Tri-Creaser couldn't be improved but the Easy Fit version really does give maximum creasing depth on all stocks. We ran off 30,000 leaflets the other day, printed in solid black and there wasn't even a hint of cracking from the first copy to the last. We are delighted with the results we are getting and this extends throughout all the products we have purchased from Tech-ni-fold."*
