

The New Highfield

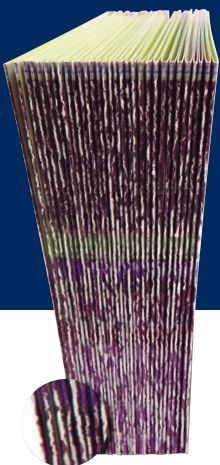

# ***SPEEDCREASER***

Quality Finishing At Speed!

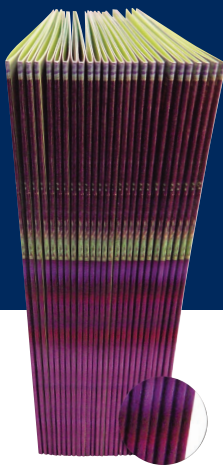

AVAILABLE  
**DECEMBER**  
2005

Without the  
Speed Creaser

Using the  
Speed Creaser

- Produce 1 or 8 creases at the same speed
- Precision manufactured machine utilising award winning devices from Tech-ni-fold
- Compact bench top design
- Prevents cracking on digital or litho printed stocks
- Adjustable pressure system to accommodate all stocks

# Versatile Speed Creaser

As well as being a fast precision creasing machine a host of other devices are available for the Speedcreaser

## Perforating Tool

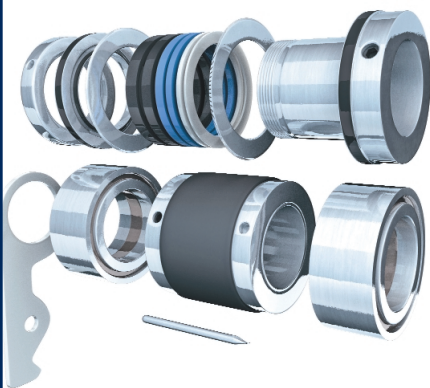

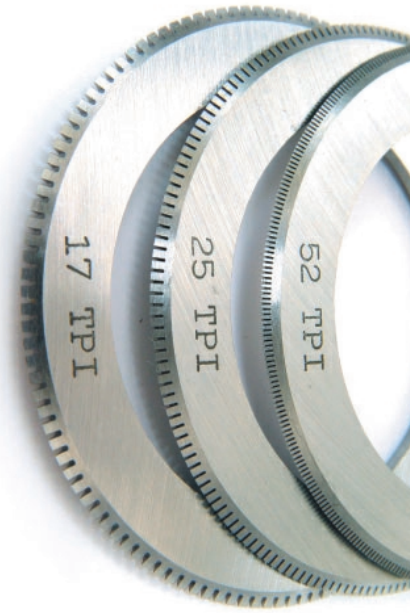

Produce almost invisible and fine perforations from a choice of blades to accommodate any stock material.

• 17tpi • 25tpi • 52tpi (micro perforation)

## Cutting / Slitting Tool

Produce guillotine quality slitting or Kiss cutting.

## Multi Tool

Produce multiple applications from one device

Slit • Trim • Kiss Cut • Micro Perforate • Edge Trim

More exciting devices also being developed for the Speed Creaser
