INSTRUCTION GUIDE

The Tri-creaser De-lux has been designed to produce maximum creasing quality on materials ranging from 100gsm to 350gsm and above.

The device has been pre-set, ready to crease materials 170 - 250gsm.

SET UP AS DIAGRAM SHOWS (OVER LEAF)

If a different creasing width is required locate extraction channel on male component 'A' and gently prise insert from groove by using scriber tool 'C' and choose an alternative setting, see table below for guide.

INSERT SETTING	MATERIAL WEIGHT	COLOUR CODED INSERT
1	100 - 170gsm	RED 
2	170 - 250gsm	RED 
3	170 - 270gsm (wide crease option)	RED 
4	270 - 350gsm	PINK 
5	300gsm and above (wide crease option)	PINK
