Perfect Bound Books**

We stock over 25 versions of the Quad Creaser for top brands of Binding machines, please check the manufacturer's list at the foot of this page for details

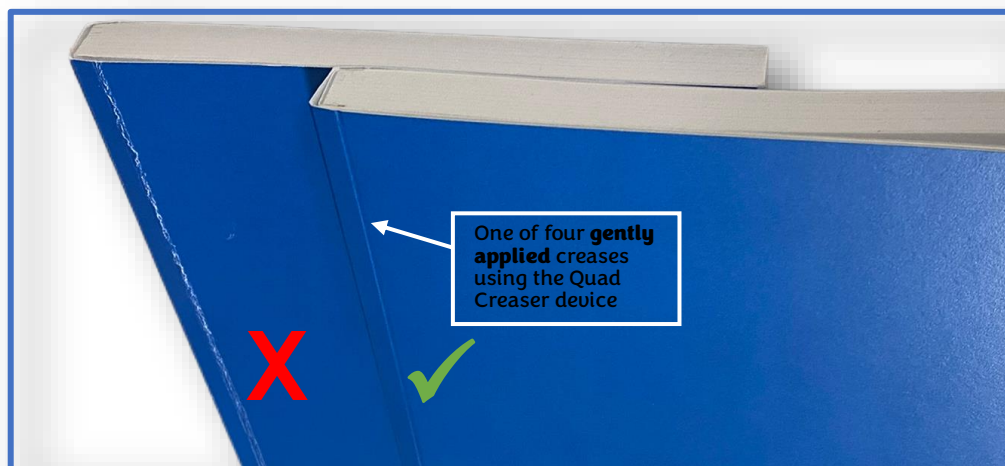

*Covered by our
unique 3-month
money back
guarantee*

Why the Quad Creaser?

It is a simple fact; Perfect Bound books are often judged by their cover...

Your existing supplied OEM steel scoring modules are **abrasive and create shallow indentations** in the two spine & (two) hinge areas often resulting in the flaking problem as seen in the left side of the image below. The problem is compounded by the opening and closing of the front cover, adding more stress to the hinge.

The **Quad Creaser** replaces your OEM scoring mechanism to produce **Letterpress quality creasing** to the spine & hinge area of your book covers. This patented application uses specially formulated rubber & nylon creasing ribs that gently stretch the fibres in the book covers to produce flawless results. The **three times deeper crease applications** help to prevent the print, coating and laminate from flaking away, regardless of grain direction. **Installation is simple and requires no machine modifications.**

Just a few of the Quad Creaser Benefits

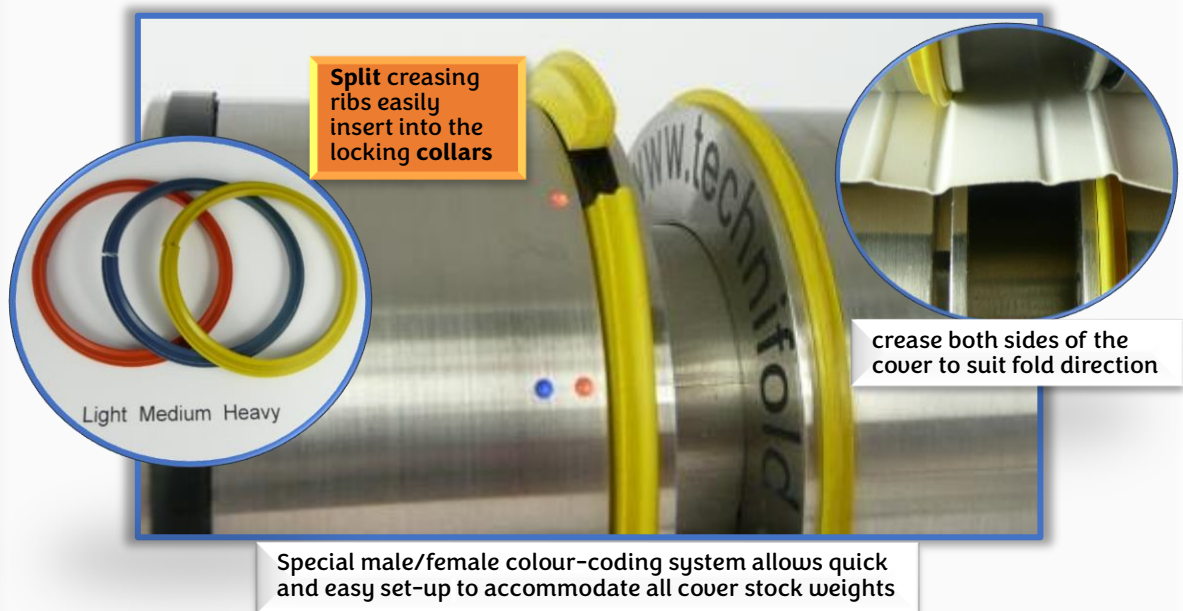

- **Eliminates** spine & hinge fibre **cracking & flaking**
- Applies **three times deeper** creasing than OEM scoring tools
- Can crease both sides of the cover
- Excellent on UV coated, laminated and digitally printed stocks
- Allows **easy** cover opening flexibility
- Split creasing ribs **easily** insert into the locking collars
- **Improves glue contact** of hinge area to text pages
- Enables **1 to 4 crease lines** to be implemented simultaneously
- You can **vary the spine and/or hinge widths & depths** to work on all cover stocks
- Setting is **fast and simple** thanks to the colour-coding system
- **No more** outsourcing your covers to be creased offline

Three times deeper creasing than OEM scoring tools

Improved glue contact of hinge area to text pages

Split creasing ribs easily insert into the locking collars

Light Medium Heavy

crease both sides of the cover to suit fold direction

Special male/female colour-coding system allows quick and easy set-up to accommodate all cover stock weights

Order your Quad Creaser today and it will be delivered direct to your door, the simple to read instruction guide is all you need to be up and running within minutes...

Take advantage of our Unique 3-month money back GUARANTEE

**If for any reason you are not satisfied with how
your Quad Creaser performs within the first 3
months of purchase, simply return it to us and we
will refund 100% of the money you paid**

*"We had to score thicker covers offline, and now we can do it
inline. It has increased productivity, but it is more about the
quality of the finished product. I would definitely put your
product forward to other print houses."*
