

Are you fed up
with **cracking**
problems on your
folding machine?

Without the Tri-Creaser

Existing scoring devices
are made of steel and
are too harsh for this
type of stock...

...see the result here

This product was creased on a folding machine,
using Tri-Creaser Fast-Fits

See reverse to learn more

The soft and gentle
rubber technology used
in the Tri-Creaser stretches
the fibres in the stock...

..so cracking
isn't allowed
to happen

Tech ni Fold

Tri-Creaser Fast-Fit

With the Tri-Creaser

With the Tri-Creaser...

Tri-Creaser Fast-Fit benefits...

- Completely eliminates fibre cracking 100% on stock ranges 85-350gsm
- Produces a crease that is as good or better than a flatbed Cylinder impression
- Produces any one of a choice of multiple crease settings for any imaginable print/stock combination, and works like magic on difficult toner based digital output
- Works just as well when it creases and folds against the grain as it does with it
- Works as fast as your folding machine can run with no limitations on speed
- Takes only minutes to set up and seconds to change from one crease setting to another
- Pays for itself within 1-3 job runs
- Saves expensive outsourcing costs
- Saves hours and hours of time
- Gets the work to your customer faster
