revolutionary products...

Tri-Creaser Fast Fit FITS FOLDING MACHINES

New Split Creasing Rib Technology is the Key

The new Tri-Creaser Fast Fit is simply the ultimate in creasing technology. This upgrade to the Easy Fit version uses revolutionary **Split Creasing Ribs** which dramatically reduces set-up time. A choice of three colour coded Split Creasing Ribs can be instantly applied **without** having to remove the exit shafts.

Micro-Perf, Cut & Crease Combo FITS FOLDING MACHINES

Creasing

This versatile micro perforating and cutting unit incorporates the split creasing rib technology found on the Tri-Creaser Fast Fit.

Two processes can run together such as:

Perforate & Crease

(as shown above)

Cut & Crease

Cut & Perforate

CP Applicator FITS FOLDING MACHINES

Micro-Perforation & Crease

Ideal for vouchers, coupons or rip-out order forms

Produces two **almost invisible micro-perforations** as little as 5mm apart

Includes creasing options that can be inserted into the centre of the two perforations to ensure **quality fold positions**

Long life perforation blades in 52, 25 & 17 TPI (teeth per inch) for 65-350 gsm stocks

What people are saying about the revolutionary products...

"Witherby's have purchased a full range of Tech-ni-Fold products over the years and I can honestly say they have paid for themselves many times over. The quality of the product and the results we have achieved on Folders and Muller lines have been superb. I honestly cannot recommend these products highly enough."

James Green, Witherby & Co Ltd London

"Just a line to say we have done two jobs using the CP Applicator. Delighted! Saved 15 hours work on the Heidelberg cylinder between them and freed up a man."

Filip Gichev, Nependoni Printing House, Bulgaria

"This is the first thing I've ever found that lives up to its billing 100%. I recently bought one to try and now I have nine!"

Doug Rosen, Pearl Pressman Philadelphia, USA

"Twenty six years of printing and the Tri-creaser is simply the best."

Jim Barnard, Delancey Printing, VA

"The Tri-Creaser!! Amazing that something so simple and user friendly wasn't brought to the market years ago! We have already earned back the investment in only two months since the purchase. We have an easier and faster workflow - a perfect solution!"

Christian Nielsen, Team Leader Datagraf, Denmark
