

## What people are saying about the TRI-CREASER ADVANCE...

The Tri-Creaser Advance makes my life easy.  
It gives us a big advantage enabling us to crease heavier stock  
on the folding machine without putting it on the cylinder.

We had a difficult job and the outside looked great but the inside  
was flaking. I ordered a new Tri-Creaser Advance, was so  
impressed, I ordered two more the next day. They really work  
great. We delivered that job on time and it saved us from getting  
a letterpress score and missing a deadline.

- JIM NAVULIS -

Haapanen Brothers, Illinois, USA

We run a 300gsm silk job for a perfume brand. The job is  
laminated on the outside but not on the inside. The Tri-Creaser  
Advance gives a beautiful square crease result on the inside of  
the fold by producing a deeper impression. The Tri-Creaser  
Advance is an improvement even on previous versions.
