

CP-Applicator FITS FOLDING MACHINES

Micro Perforation & Crease
Ideal for vouchers, coupons or rip-out order forms
Produces two **almost invisible micro-perforations** as little as 5mm apart
Includes creasing options that can be inserted into the centre of the two perforations to ensure **quality fold positions**
Long life perforation blades in 52, 25 & 17 TPI (teeth per inch) for 65-350 gsm stocks

Spine Creaser FITS SADDLE STITCHING MACHINES

Quality Creasing
on your Saddle Stitching Machine
Simply fits onto your existing stitching machine's cover feeder and turns it into a creasing cylinder
Guaranteed to eliminate fibre cracking 100%

Multi-Purpose Machinery

THE SMALL MACHINE WITH BIG FEATURES!

Works with
Digital & Litho

The table top machine will produce multiple tasks such as Crease, Cut & Micro-Perforating
Hand feed up to 5000 sheets per hour

HIGH SPEED ROTARY CREASING MACHINE

Produces up to 18,000 sheets per hour
Feeds 45 - 350 gsm stock
Standard equipment includes
Two Fast Fit Tri-Creasers
Two Micro Perforation units
Includes suction pump feeder
Digital batch counter
Double sheet detector
Electronic speed control
Single phase electricity

Global Leaders in creasing technology
Eliminating fibre cracking 100%

Welcome to the Tech-ni-Fold world of innovative creasing solutions for the global printing industry

See inside for more revolutionary products...

Tri-Creaser Easy-Fit FITS FOLDING MACHINES

Enhanced Crease Quality

Robust "gripper crease" acts as a cushion, absorbing uneven shaft pressure by adding greater depth as well as advanced sheet support

Incorporating **eight** crease settings

100% colour coded

Coloured creasing rib matches corresponding dot coded female channel

Tri-Creaser Fast Fit FITS FOLDING MACHINES

New Split Creasing Rib Technology is the Key

The new Tri-Creaser Fast Fit is simply the ultimate in creasing technology

This upgrade to the Easy Fit version uses revolutionary **Split Creasing Ribs** which dramatically reduces set-up time

A choice of three colour coded Split Creasing Ribs can be instantly applied **without** having to remove the exit shafts

Micro Perf & Cut Multi-Tool FITS FOLDING MACHINES

Cutting

Superior cutting blades last up to five times longer than conventional blades

Robust double edged cutting anvils give superb results

Easy to use waste stripping system

Edge trimming included

Micro Perforation

Fine and almost invisible Micro-Perforations

Perforates 65-350 gsm

Extra strong blades 52, 25 and 17 TPI (teeth per inch) included in pack

What people are saying about the revolutionary products...

"Witherby's have purchased a full range of Tech-ni-Fold products over the years and I can honestly say they have paid for themselves many times over. The quality of the product and the results we have achieved on Folders and Muller lines have been superb. I honestly cannot recommend these products highly enough."

James Green, Witherby & Co Ltd London

"We can't believe how easy it is to set and the productivity gains we are getting in such a short time."

Marlin Jones, W O Jones (Printers) Ltd Llangefni, Anglesey

"This is the first thing I've ever found that lives up to its billing 100%. I recently bought one to try and now I have nine!"

Doug Rosen, Pearl Pressman Philadelphia, USA

"Twenty six years of printing and the Tri-creaser is simply the best."

Jim Barnard, Delancey Printing, VA

"The Tri-Creaser!! Amazing that something that simple and user friendly wasn't brought to the market years ago! We have already earned back the investment in only two months since the purchase. We have an easier and faster workflow – a perfect solution!"

Christian Nielsen, Team Leader Datagraf, Denmark

"We received the Spine-Creaser attachment this morning and it went right in without any problems. The before and after on the cover spines is so dramatic that everyone from our sales department is floored!"

Erik Flint, Concord Litho, USA

"Best invention I've come across over the last decade – saved me a lot of time and money. Now I do not dread covers coming in, laminated or not"

P Threddall, E Fish & Co 1996 Ltd Liverpool
