

Crease & Cut

Crease & Micro-perf

Cut & Micro-perf

Eliminating
cracking is
just the
start...

When you need one Tool that can do it ALL...

Introducing the Micro-Perf, Cut & Crease Combo

The **ultimate** time and money saving folding machine accessory
that has everything built in so you avoid outsourcing forever

Cut • Crease • Micro-perforate

An “All Powerful Solution” that combines all three
Tech-ni-fold technologies into one device.

What benefits will you get with our Combo device?

- Produces **perfect letterpress style** creasing with 8 settings to stop cracking on all stock ranges from 80gsm text up to 350gsm card
- Produces flat and **almost invisible micro-perforations** to cater to a full range of material, so good that the perfed sheets can easily run through laser printers
- Produces razor sharp slitting, double cutting and edge trimming that **out-performs** other rotary methods many times over
- Simple installation and requires **NO special operator skills**
- Perf and cutting blades **last many times longer** than other systems
- Combines close proximity creasing/micro-perforating and cutting
- **Eliminates outsourcing** of creasing AND micro-perforating
- Allows you to handle jobs you used to turn away
- **Saves thousands** in replaced blankets
- Puts an end to broken perf blades

The Micro-Perf, Cut & Crease Combo is compatible with the following types of folding and creasing machines:
Heidelberg, Stahl, MBO, Horizon, Herzog & Heymann, GUK, MB, Shoei, Baum, CreaseStream, Agor

Please test crease by folding...
