

Just a friendly reminder,

## Multi-Tool

The Multi-Tool is a versatile product and it comes in 4 combinations. The **Multi-Tool Combo**, the **Multi-Tool Complete**, the **Multi-Tool Perforation Option 1** and the **Multi-Tool Cutting Option 2**.

The Multi-Tool combines all the same qualities and attention to details as the rest of the Tech-ni-Fold products.

**The Multi-Tool Combo**

**The Multi-Tool Complete**

**The Multi-Tool Perforation Option 1**

**The Multi-Tool Cutting Option 2**

The benefit of the Multi-Tool Combo package is that it will allow your customer to *Crease, Perf & Cut*, to a quality not normally seen on folding machines. The Multi-Tool can be used in various different combinations, *Crease & Cut*, *Perf & Crease*, two *Cuts* and a *Perf* or just a single function. What makes this device unique is that it has all three applications available in one tool **ALL** with a the high quality finish expected from a Tech-ni-Fold products. This is a big saving for your customers and is a great selling angle for you too.

We are constantly thinking of our customer's needs, some will only want to *Cut* or *Perf*, some may never need to *Crease* so why not try offering them the Multi-Tool Complete, this allows your customer to use the tool for all their cutting and perforating requirements and then the creasing option is available as an additional extra should it be required.

If you need any prices or further information on the Multi-Tool Options, please do not hesitate to contact me, I will be only too willing to help. You can reach me on +44 (0) 1455 554491 or email [Vivienne.Edwards@Technifold.co.uk](mailto:Vivienne.Edwards@Technifold.co.uk)
