

The simple way to  
stop your stitched  
books from cracking...

...introducing  
the revolutionary  
**Spine-Creaser**

Please test crease by folding...

The  
cover feeder  
attachment  
that produces  
the perfect  
letterpress  
crease

## Installation is simple...

Using a set of Allen keys, your operator only needs to remove the existing score wheel from the cover feeder, apply the creasing matrix to the drum and attach the new double-wheel Spine Creaser with a single bolt. You are ready to begin producing a perfect crease on your saddle stitcher within **30 minutes** of installation!

**It's like substituting your cover feeder for  
a Heidelberg cylinder letterpress...**

**...the Spine-Creaser is that special!**

- Totally eliminate fibre cracking on cover stocks
- Totally eliminate all offline scoring operations for your saddle-stitched books
- Totally eliminate all out-sourcing of creasing operations... keep it all in your control
- Save your die cutters or printing presses for more complex, profitable work
- Get finished books to your customer faster... **guaranteed!**

**The Spine-Creaser fits the following types of saddle stitching machine cover feeders:**

Heidelberg machines (including ST90, ST100, ST300, ST350, ST400, ST450 and Prosetter)

Muller Martini 1528, 1529, 1553 & 1554, McCain, Harris, Macey, Sheridan, Osako, Horizon and Hohner.
