the Section Score for top brands
of folding machines, please
check the manufacturer's list at
the foot of this page for details

Covered by our
unique 3-
month money
back guarantee

Why the Section Score?

It is a simple fact; Your OEM scoring tools are critically flawed and have not evolved to keep pace with folding machine technology. They retain the same destructive elements ever since they were first developed in 1850. The link below takes you through to a document that includes all the details...

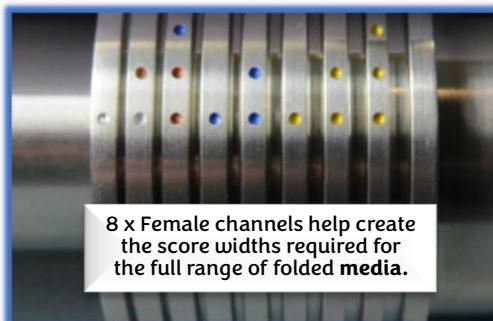

**THREE REVEALING FACTS WHY
YOUR OEM SCORING TOOLS ARE CRITICALLY FLAWED
AND HOW OUR SUPER UPGRADE SECTION SCORE
DEVICES WILL INSTANTLY TRANSFORM THE QUALITY
OF ALL YOUR FOLDED PRODUCTS TO A COMPLETELY
NEW LEVEL...**

The Section Score is a 3 times deeper multiple scoring option you can purchase to replace the steel scoring devices that are supplied as standard with your folding machine(s). This device **boasts 8 score settings of varying widths & depths**, all of which are quick & easy to implement for any job being processed thanks to its **inbuilt colour-coding system**.

The Section Score was initially produced to improve fold accuracy for 8-, 16-, 32- & 64-page Signature work, however it is clearly much more versatile than this as customers are utilising the device for everyday use on a full range of media.

Some Section Score Features & Benefits

- Applies **3 times deeper score** than OEM scoring tools.
- Ensures that folding is 100% consistent with the score.
- Reduces fold wrinkles (crow's feet.)
- 8 in-built score settings to choose from
- The split in the scoring ribs ensures score insertion into the male hub is **fast & simple**.
- Male/female **colour-coding system** means even inexperienced operators will become instant scoring experts.
- **Takes away** any operator guess work.
- Saves time and improves productivity.
- Includes 3-month **100% money back guarantee**.

8 x Female channels help create the score widths required for the full range of folded media.

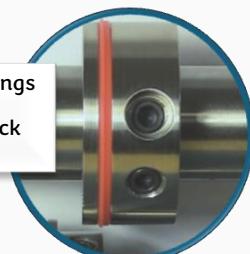

4 colour coded scoring ribs of various sizes dictate the depth of score according to the processed stock.

Folding is always 100% consistent with the score.

Insertion of split scoring rings is quick & easy as the male hub opens and closes to lock them securely into place.
