

BRISTOL OPEN HOUSE EVENT 2005

27th - 29th September @ Gloucestershire County Cricket Club

We take pleasure in inviting you to an exciting Open House Event that centres on the future of print finishing technology incorporating the innovative products of two Global Giants, Tech-ni-fold Ltd and Duplo International.

As Managing Director of Tech-ni-fold Ltd I am delighted that our vision of how we see print finishing in the future is being turned into reality right NOW through the efforts of Duplo and other Global manufacturers.

We are in the business of improving your production output in the most efficient manner possible and our valuable patents have allowed us the licence to do this across most sectors of the industry.

If you have experienced the quality results of the Tri-creaser and know something of the impact it has made to your business, I promise, you have seen nothing yet.

I urge you to take a few hours out of your busy schedule to witness even more ground breaking technology first hand at such a glorious venue.

Our thanks goes to Peter Jolly of Duplo International for allowing us the chance to share in this exciting event.

Many of our products will be integrated into some of the equipment below.

- The System 5000 **Total Bookletmaking Solution**, where Duplo will be showing both the litho version (featuring vacuum collator towers) and the digital version which features the DSF-2000 Sheet Feeder and new SCC **Slitter/Cutter/Creaser** module.
- The new DC-645 **Production Colour Finisher**, the heavy duty finishing device that can cut, crease and trim digital print and produce business cards all in a single pass and 'baby brother' of this machine - the DC-545 **DocuCutter**.
- The new DCM 45/75 **Creaser and Perforator**, the fast heavy-duty high-speed creaser designed for digital and offset print, from 50-500gsm that can be used inline with...
- The new MKF-35 **Knife Folder**, the versatile folding machine can adapt to many finishing devices including Duplo (and other) bookletmaking systems, Duplo's DC-545 and 645 products as well as offset and digital printing presses.

Duplo will also have their range of perfect binders, guillotines, mid-range bookletmakers, collators, folders, numbering machines, laminators and their office equipment range from Renz, GBC, D&K and Powis Parker. See enclosed faxback sheet for full list of equipment.

On the printing side Duplo will also have their **Duprinter range** on show as well as the latest **colour digital printing technology from Océ**.

Book now to ensure you don't miss out on this special regional event. Simply complete the Faxback form on the reverse side or call 0116 2751 440.

If you wish to attend a map with clear directions will be emailed or faxed over to you.

Yours sincerely,

Graham Harris
