## Critical to your saddle stitching success...

Are you truly interested in **maximising production** and **eliminating costly extra steps** on your saddle stitching line? If so, then the Spine-Creaser is **absolutely critical to your success**

If you are scoring book covers in a separate operation, or are sending the jobs out, then you are taking **3 Large Business Risks**:

- (A) You're not getting maximum profit from every job.
- (B) You are losing the sales advantage and quick-delivery advantage to a competitor.
- (C) You are risking the loss of a customer because your quality and turnaround time is marginal or worse yet, simply sub-standard.

If you are wise enough to take advantage of an entirely risk-free opportunity, and want to turn your jobs around faster and better...

**...call 01455 554491 today!**

## Compatibility...

The Spine-Creaser fits the following types of saddle stitching machines:
